NAMIBIA COVID-19 SITUATION REPORT NO. 81			
<b>Outbreak Name</b>	<i>COVID-19 outbreak</i>	<b>Country affected</b>	<b>Namibia</b>
<b>Date &amp; Time of this report</b>	<i>07.06.2020 23:30 hrs</i>	<b>Investigation start date</b>	13 March 2020
<b>Prepared by</b>	<i>Surveillance Team</i>		

**1. SITUATION UPDATE / HIGHLIGHTS**

- Two (2) new confirmed cases were recorded today (07 June 2020)
- Cumulatively, 31 confirmed cases have been reported in the country.
- Of the 31 confirmed cases, Sixteen 16 (51.6%) have recovered.
- Twenty-seven 27 (87.1%) of the confirmed cases are imported while 4 (12.9%) are local transmissions.
- No death has been recorded, case fatality rate is 0%
- There is no evidence of community transmission in the country at the moment.
- On 28 May 2020, His Excellency, The President of the Republic of Namibia announced a transition of all the regions (with exception of the Walvis Bay Local Authority Area) from stage 2 of lockdown to stage 3 with effect at midnight 01 June 2020 until 29 June 2020.
  - Stage 3 of lockdown covers a period of 28 days/ two incubation periods.
  - Walvis Bay Local Authority Area has reverted to stage 1 of lockdown on 29 May 2020 until midnight, 08 June 2020.

## 2. BACKGROUND

### Description of the cases

- **Index cases:** Two confirmed cases of COVID-19 were reported in Windhoek district on 13 March 2020. The married couple; a 35-year-old male and a 25-year-old female, arrived from Madrid, Spain on 11 March 2020.
- On 07 June 2020, Namibia recorded 2 new confirmed cases, bringing the total confirmed cases to 31.
  - Case No. 30 and 31 are 27-years old and 50 years old Namibian females who travelled from India by air via OR Tambo International Airport, South Africa on 24 May 2020. They arrived in Namibia on 25 May 2020 and were placed into supervised quarantine in ||Kharas Region.

## 3. EPIDEMIOLOGY

Since 14 March, 2020 when the COVID-19 outbreak was declared in Namibia, a total of **31** cases have been confirmed. So far, four (4) regions have been affected, of which Khomas region recorded the highest number of cases; **16 (51.6%)**, while Hardap region recorded the least; **2 (6.5%)**.

*Figure 1 Distribution of Confirmed COVID-19 cases in Namibia, by region as of 07 June 2020*

As presented in figure 2 below, Namibia recorded its cases of COVID-19 during epidemiological weeks 11, 12,13, 14, 21, 22, 23 and 24 where most cases (7) were recorded during epidemiological week 13.

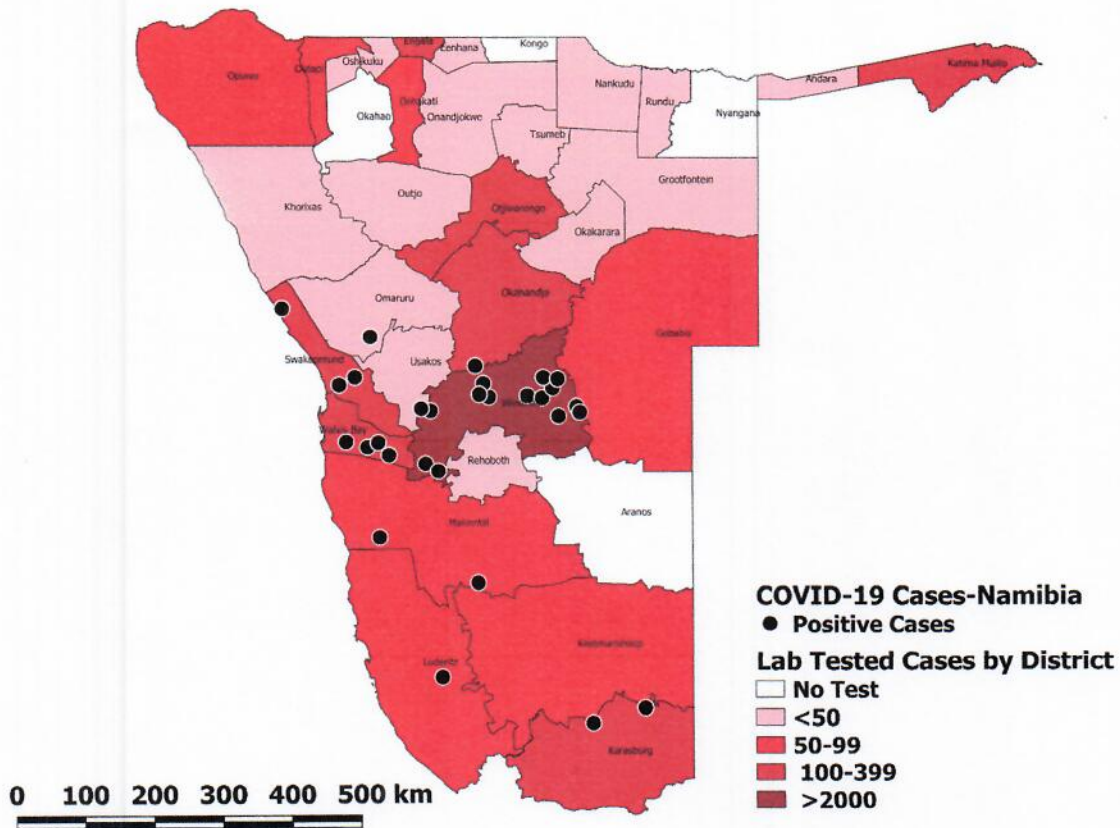

*Figure 2: Epi-curve for confirmed COVID-19 cases in Namibia as of 07 June 2020*

Of the 31 confirmed cases, more males; **21 (67.7%)** are affected compared to their female counterparts; **10 (32.3%)**.

*Figure 3: Age and sex distribution of COVID-19 confirmed cases in Namibia as of 07 June 2020*

*Figure 4: Suspected and confirmed COVID-19 cases in Namibia per District, 07 June 2020*

#### 4. PUBLIC HEALTH ACTION / RESPONSE INTERVENTIONS AND SURVEILLANCE

- **Case definitions as of 20 March 2020:**

**Suspected case:**

**A.** A patient with acute respiratory illness (fever and at least one sign/symptom of respiratory disease, e.g., cough, shortness of breath), AND a history of travel to or residence in a location reporting community transmission of COVID-19 disease during the 14 days prior to symptom onset; OR

**B.** A patient with any acute respiratory illness AND having been in contact with a confirmed or probable COVID-19 case in the last 14 days prior to symptom onset; OR

C. A patient with severe acute respiratory illness (fever and at least one sign/symptom of respiratory disease, e.g., cough, shortness of breath; AND requiring hospitalization) AND in the absence of an alternative diagnosis that fully explains the clinical presentation.

**Probable case:** A suspect case for whom testing for COVID-19 is inconclusive. Inconclusive being the result of the test reported by the laboratory

**Confirmed case:** A person with laboratory confirmation of COVID-19 infection, irrespective of clinical signs and symptoms

- **Active surveillance working case definition as of 20 April 2020**

A patient diagnosed with Upper/Lower Respiratory Infection (Mild or Severe) presenting any of the following signs and symptoms: cough, sore throat, fever, chills, myalgia/body pains or shortness of breath in the past 7 days.

- **Surveillance activities**

- Call centre continue operations for 24 hours every day; **985** calls were answered at the hotline today (07.06.2020) and **6** alerts were investigated.
- Namibia COVID-19 dashboard accessible via a link on the MoHSS's website <http://www.mhss.gov.na/> or at <https://cutt.ly/Covid-19-situation-Namibia>
- Active case search in all regions is ongoing.
- Contact tracing and monitoring is ongoing (**see Table 1**).
- Mandatory supervised quarantine of all persons arriving from abroad is ongoing (**see Table 2**).
  - All people are tested upon entry into mandatory quarantine for rapid detection of positive cases.
  - All people in quarantine are monitored daily for 14 days and are being tested on day 12 before release on day 15 if they test negative.

### **Contact tracing Summary**

As of 07 June 2020, a total of 505 contacts have been identified. Three hundred and thirty-seven (**337**) contacts have completed their 14 days of follow up and **156** are still active and being monitored daily for 14 days (**Table 1**).

*Table 1: National contacts tracing summary for COVID-19 as of 07 June 2020*

Variables	High	Medium	Low	Total
Total Number of contacts listed for follow up (potential)	169	98	282	549
Total Number of contacts identified (cumulative)	168	98	239	505
Total number of Contacts never reached	1	0	43	44
© Total Number of contacts lost to follow up	0	2	5	7
Total Number of contacts that developed signs & symptoms	25	9	9	43
Total Number of contacts that tested positive (became cases)	4	1	0	5
Number of active contacts monitored/followed in the last 24hrs	58	30	68	156
Total number of Contacts completed 14-days follow up	106	67	164	337

© Seven contacts are lost to follow up, all are non-Namibians and have travelled back to their countries of origin.

As of 08 June 2020, a total of **2567** persons who came into the country have been put into supervised quarantine facilities throughout the country. Of the 2567, **1830** have been discharged and **737** are currently quarantined (Table 2).

*Table 2: Number of people in mandatory quarantine facilities as of 07 June 2020*

Region	Newly quarantined 24hrs	Cumulative number of people	Number of people discharged	Number of people in quarantine now
Kunene	0	53	51	2
Omaheke	15	85	56	29
*Kavango	0	58	44	14

#### LABORATORY INVESTIGATIONS

- As of 07 June 2020, a total of **4937** (including **324 re-tested**) COVID-19 specimens have been tested in the two laboratories (NIP and Path Care) as per **Table 5** below:

*Table 5: COVID-19 specimens recorded at NIP and Path care Laboratories as of 07 June 2020*

Variables	Laboratory			Total
	NIP	Path care	South Africa	
Total sample received by the Laboratory	3915	1092	-	5007
<b>Total sample tested</b>	<b>3555</b>	<b>1058</b>	-	<b>4613</b>
Total sample re-tested	298	26	-	324
<b>Total results positive</b>	<b>23</b>	<b>7</b>	<b>*1</b>	<b>31</b>
Total results negative	3532	1051	-	4583
Total sample discarded	61	8	-	69
Total sample missing	0	0	-	0
Total results pending	1	0	-	1
Total results inconclusive/indeterminate	0	0	-	0
Total new suspected cases in last 24 hours	175	0	-	175

*\*1 Patient specimen collected and tested in South Africa, he travelled back before results came out*

## **COUNTRY COORDINATION, PLANNING AND MONITORING**

- Continues to attend the IM Briefing Meetings and agreed to hold regular meetings with the IM. The team proposed that.
- Drafting and finalizing integrated support visits to the regions with borders and strengthening the coordination and management of response interventions at regional/district levels; quarantine/isolation facilities, PoEs and truck ports in the regions.

## **CASE MANAGEMENT:**

- Out of the 31 cumulative confirmed cases, 16 have recovered after testing negative twice for COVID-19 at 48 hours' interval.
- Of the 15 active cases, 1 is still in ICU but in a stable condition and the other 14 are clinically stable.

## **INFECTION PREVENTION AND CONTROL:**

- IPC activities are on going:
  - Distribution of PPE according to the Regional plans
  - Monitoring of IPC in health facilities

## **LOGISTICS.**

- A 12 bed capacity ICU AT Windhoek Central Hospital was inaugurated by His Excellency, The President on 03 June 2020.
- Facilitation of the allocation of quarantine facilities around the country and transportation of discharged people from quarantine facilities is ongoing.

## **POINTS OF ENTRY:**

- Ongoing screening and inspection of incoming travellers and trucks at points of entry and check points.

## **RISK COMMUNICATION AND COMMUNITY ENGAGEMENT:**

- The COVID-19 Communication Center continues to update the public on the status of the outbreak, the impact on different sectors and address rumours around COVID-19.

## **PSYCHOSOCIAL SUPPORT SERVICES:**

- Continuous provision of health education, psychosocial support services, as well as food to people in need of shelter.

## **5. CHALLENGES:**

- Inadequate isolation units at health facilities in the regions.
- Insufficient PPE and swabs for sample collection from suspected cases identified through active case search in some districts.
- Inadequate nasopharyngeal swabs and appropriate transport media.

## **6. RECOMMENDATIONS AND WAY FORWARD:**

- Establish fully equipped isolation units at health facilities in the regions.
- Logistics pillar to continue with the procurement and distribution of sufficient PPE to the regions to ensure that response is not interrupted.
- NIP to continue sourcing for swabs and appropriate transport media for all districts.
- Draft and present integrated support visit to management for consideration and approval to strengthen regional capacities and readiness before they report new cases.

**Approved:**
