NAMIBIA COVID-19 SITUATION REPORT NO. 88			
Outbreak Name	<i>COVID-19 outbreak</i>	Country affected	<i>Namibia</i>
Date	<i>14.06.2020</i>	Investigation start date	<i>13 March 2020</i>
Time of this report	<i>00:55 hrs</i>		
Prepared by	<i>Surveillance Team</i>		

1. SITUATION UPDATE / HIGHLIGHTS

- No new confirmed case was recorded today (14 June 2020)
- Cumulatively, **32** confirmed cases have been reported in the country.
- Of the **32** confirmed cases, seventeen **17 (53.1%)** have recovered.
- Twenty-seven **27 (84.4%)** of the confirmed cases are imported while **5 (15.6%)** are local transmissions.
- No death has been recorded, case fatality rate is **0%**
- On 08 June 2020, His Excellency, The President of the Republic of Namibia announced the extension of the Stage 1 restrictions imposed on the Walvis Bay Local Authority Area to the entire Erongo region;
 - Effective from midnight 08 June 2020 until mignight 22 June 2020.
- The other regions are still under Stage 3 of national lockdown which covers a period of 28 days (01 June 2020 – 29 June 2020).

2. BACKGROUND

Description of the cases

- **Index cases:** Two confirmed cases of COVID-19 were reported in Windhoek district on 13 March 2020. The married couple; a 35-year-old male and a 25-year-old female, arrived from Madrid, Spain on 11 March 2020.
- On 12 June 2020, Namibia recorded a new COVID-19 case bringing the total number of confirmed cases to 32.
 - The case is a 31 years old female Namibian from Walvis Bay, Erongo region.

3. EPIDEMIOLOGY

Since 14 March, 2020 when the COVID-19 outbreak was declared in Namibia, a total of **32** cases have been confirmed. So far, four (4) regions have been affected, of which Khomas region recorded the highest number of cases; **16 (50%)**, while Hardap region recorded the least; **2 (6.3%)**, as per figure 1, below

Figure 1 Distribution of Confirmed COVID-19 cases in Namibia, by region as of 14 June 2020

As presented in figure 2 below, Namibia recorded its cases of COVID-19 during epidemiological weeks 11, 12, 13, 14, 21, 22, 23 and 24 and most cases (7) were recorded during epidemiological week 13.

Figure 2: Epi-curve for confirmed COVID-19 cases in Namibia as of 14 June 2020

Of the 32 confirmed cases, more males; 21 (65.6%) are infected compared to their female counterparts; 11 (34.4%).

Figure 3: Age and sex distribution of COVID-19 confirmed cases in Namibia as of 14 June 2020

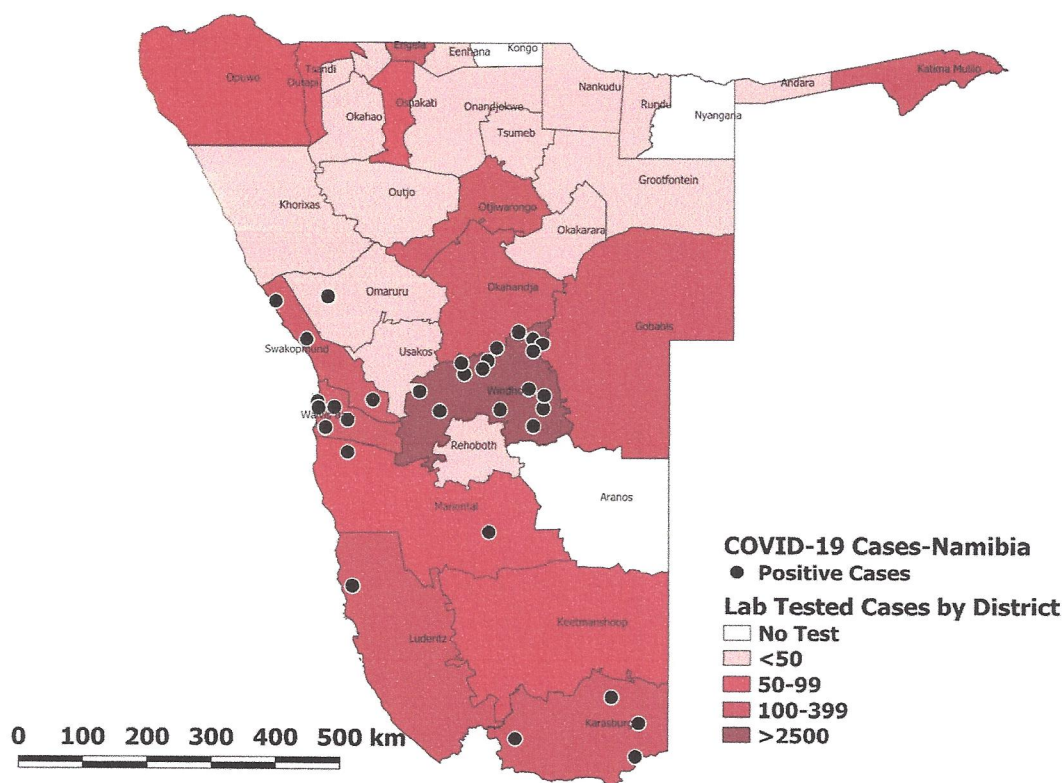

Figure 4: Distribution of suspected and confirmed COVID-19 cases in Namibia by District, 14 June 2020

4. PUBLIC HEALTH ACTION / RESPONSE INTERVENTIONS AND SURVEILLANCE

- **Case definitions as of 20 March 2020:**

Suspected case:

A. A patient with acute respiratory illness (fever and at least one sign/symptom of respiratory disease, e.g., cough, shortness of breath), AND a history of travel to or residence in a location reporting community transmission of COVID-19 disease during the 14 days prior to symptom onset; OR

B. A patient with any acute respiratory illness AND having been in contact with a confirmed or probable COVID-19 case in the last 14 days prior to symptom onset; OR

C. A patient with severe acute respiratory illness (fever and at least one sign/symptom of respiratory disease, e.g., cough, shortness of breath; AND

requiring hospitalization) AND in the absence of an alternative diagnosis that fully explains the clinical presentation.

Probable case: A suspect case for whom testing for COVID-19 is inconclusive. Inconclusive being the result of the test reported by the laboratory

Confirmed case: A person with laboratory confirmation of COVID-19 infection, irrespective of clinical signs and symptoms

- **Active surveillance working case definition as of 20 April 2020**

A patient diagnosed with Upper/Lower Respiratory Infection (Mild or Severe) presenting any of the following signs and symptoms: cough, sore throat, fever, chills, myalgia/body pains or shortness of breath in the past 7 days.

- **Surveillance activities**

- Call centre continue operations for 24 hours every day; **881** calls were answered at the hotline today (14.06.2020) and **7** alerts were investigated.
- Namibia COVID-19 dashboard accessible via a link on the MoHSS's website <http://www.mhss.gov.na/> or at <https://cutt.ly/Covid-19-situation-Namibia>
- Active case search in all regions is on going.
- Contact tracing and monitoring is ongoing (see **Table 1**).
- Mandatory supervised quarantine of all persons arriving from abroad is ongoing (see **Table 2**).
 - All people are tested upon entry into mandatory quarantine for rapid detection of positive cases.
 - All people in quarantine are monitored daily for 14 days and are being tested twice (upon arrival and on day 12 before release on day 15 if they test negative.

CONTACT TRACING SUMMARY

Table 1: National contacts tracing summary for COVID-19 as of 14 June 2020 not updated

Variables	High	Medium	Low	Total
Total Number of contacts listed for follow up (potential)	200	100	282	582
Total Number of contacts identified (cumulative)	200	100	266	566
Total number of Contacts never reached	0	0	16	16
Total Number of contacts lost to follow up	0	2	5	7
Total Number of contacts that developed signs & symptoms	28	9	9	46
Total Number of contacts that tested positive (became cases)	4	1	0	5
Number of active contacts monitored/followed in the last 24hrs	37	4	19	60
Total number of Contacts completed 14-days follow up	159	95	240	494

As of 14 June 2020, a total of **566** contacts have been identified. A total of **494** contacts have completed their 14 days of follow up, and **60** are still active and being monitored daily for 14 days, and all **60** were monitored today. (Table 1).

The National and Regional team is supporting the Walvis Bay district team in reviewing recent cases and contacts to rule out possible community transmission and to identify possible COVID-19 transmission hot spots for enhanced response.

Table 2: Number of people in mandatory quarantine facilities as of 14 June 2020

Region	Newly quarantined 24 hours	Cumulative number of people	Number people discharged	Number of people in quarantine now
Kunene	0	53	53	0
Omaheke	2	94	57	37
Kavango	0	65	50	15
Omusati	0	102	85	17
Oshana	0	30	18	12
Ohangwena	0	190	147	43
Hardap	0	148	138	10
Otjozondjupa	0	328	299	29
Khomas	4	908	621	287
Zambezi	2	361	297	64
//Kharas	0	355	299	56
Erongo	0	142	114	28
Oshikoto	0	42	24	18
Total	8	2818	2202	616

As of 14 June 2020, a total of **2818** persons who came into the country have been placed into supervised quarantine facilities around the country. Of the 2818, **2202** have been discharged and **616** are currently quarantined (**Table 2**).

LABORATORY INVESTIGATIONS

- As of 14 June 2020, a total of **5850** (including **498 re-tested**) COVID-19 specimens have been tested in the two laboratories (NIP and Path Care) as per **Table 3** below:

Table 3: COVID-19 specimens recorded at NIP and Path care Laboratories as of 14 June 2020

Variables	Laboratory			Total
	NIP	Path care	South Africa	
Total sample received by the Laboratory	4744	1187	-	5931
Total sample tested	4200	1152	-	5352
Total sample re-tested	471	27	-	498
Total results positive	24	7	1	32
Total results negative	4171	1145	-	5316
Total sample discarded	68	8	-	76
Total results pending	5	0	-	5
Total results inconclusive/indeterminate	0	0	-	0
Total new suspected cases in last 24 hours	101	28	-	129

COUNTRY COORDINATION, PLANNING AND MONITORING

- A delegation has been sent to Erongo region to give technical support for two weeks from 11 - 25 June 2020.
- Another delegation will be sent to Omaheke Region on 15 June 2020 to give 2 days technical support.
- Drafted and submitted a concept note for integrated support visits to other regions (Zambezi, Kavango, Ohangwena, Omusati, Kunene, Karas and Oshana region).
- UN Namibia donated assorted flow charts and posters on surveillance covering contact tracing structure, contact identification and categorization, case definition, laboratory results sharing structures.

CASE MANAGEMENT:

- Out of the 32 cumulative confirmed cases, 17 have recovered after testing negative twice for COVID-19 at 48 hours' interval.
- Of the 15 active cases, 1 is still in ICU but in a stable and improving condition. The other 14 are clinically stable.

INFECTION PREVENTION AND CONTROL:

- IPC activities are on going:
 - Distribution of PPE according to the Regional plans
 - Monitoring of IPC in health facilities

LOGISTICS.

- Received a donation of 35 laptops (each with a bag and a mouse), and 37 tablets from Old Mutual Namibia for surveillance pillar.
 - The electronic devices were issued to the surveillance team.
- Facilitation of the allocation of quarantine facilities around the country and transportation of discharged people from quarantine facilities is ongoing.
- A donation was received from UNICEF on 13 June 2020 containing:
 - N95 Masks – 27 670
 - XI Coveralls – 47 800
 - Thermometers - 200

POINTS OF ENTRY:

- Ongoing screening and inspection of incoming travellers and trucks at points of entry and check points.

Table 4. Distribution of truck drivers who came into Namibia from neighboring countries and their destination regions on 14 June 2020

Destination	Country of departure						Total
	RSA	Zambia	Botswana	DRC	Angola	Zimbabwe	
Karas	23	0	0	0	0	1	24
Khomas	169	0	2	0	5	13	189
Oshana	13	0	0	0	0	2	15
Otjozondjupa	16	1	2	0	1	0	20
Kavango	1	0	0	0	0	1	2
Ohangwena	5	0	0	0	0	0	5
Hardap	3	0	0	0	0	0	3
Kunene	1	0	0	0	0	0	1
Omaheke	2	0	0	0	0	0	2
Omusati	1	0	0	0	0	1	2
Oshikoto	1	0	0	0	0	0	1
Zambezi	0	0	0	0	0	0	0
Erongo	22	38	0	5	0	10	75
Total	257	39	4	5	6	28	339

The majority **257 (75.8%)** of the truck drivers departed from South Africa to various regions. The largest number (**189**) of truck drivers were headed to Khomas Region (Table 4).

RISK COMMUNICATION AND COMMUNITY ENGAGEMENT:

- The sms project with MTC and TN Mobile has resumed. A set of messages on COVID-19 have been developed. The messages are aimed at giving tips on the use of mask, prevention mechanisms and on nutrition guidelines. The message will be shared with all MTC and TN mobile as from the 15th June 2020.
- An additional 2000 copies of the Community Engagement toolkit printed by UNAIDS have been received and the distribution has commenced.
- The media monitoring still continues with aim of showing how the public is interacting with the IEC materials.
- Distribution of IEC Materials to schools is on-going.
- A total of 400 community engagement toolkits have been delivered to the Ministry of Education, Arts and Culture. This will enable the school to facilitate educational sessions on COVID-19.

- A google drive has been created to save all final copies of the materials produced for COVID – 19. These materials are to be shared with the IT department for uploading on the Ministerial website.
- The National Statistics Agency presented a tool to the RCCE team. The design of this tool assists in the analysis of information on social media and detection of fake news.

PSYCHOSOCIAL SUPPORT SERVICES:

- Continous provision of health education, psychosocial support services to persons in need;
 - Confirmed cases and their families
 - People in quarantine

5. CHALLENGES:

- Inadequate isolation units at health facilities in the regions.
- Inadquate PPE
- Inadequate nasopharyngeal swabs and appropriate transport media.

6. RECOMMENDATIONS AND WAY FORWARD:

- Establish fully equipped isolation units at health facilities in the regions.
- Logistics pillar to continue with the procurement and distribution of sufficient PPE to the regions to ensure that response is not interrupted.
- NIP to continue sourcing for swabs and appropriate transport media.

Approved:

Incident Manager
