

ABORTION HEALTH PROFILE

CONGO 2019

1. General Statistics	
Total population (000's), 2019	5,381
Total female population (15 - 49 years) (000's), 2019	1,295
Unintended pregnancies (000's), 2019	115
Adolescent birth rate (per 1000 women aged 15-19 years), 2013	111
Proportion of women who make their own informed decisions regarding sexual relations (% of women aged 15-49 years), 2012	71
Total fertility rate 15-49 (births per woman), 2011	5

2. Legal status of abortion		
	Not specified	No
On request		×
For economic or social reasons		×
In cases of foetal impairment		×
In cases of incest		×
In cases of intellectual/cognitive disability of woman		×
In cases of rape		×
To preserve a woman's health		×
To preserve a woman's mental health		×
To preserve a woman's physical health		×
To save a woman's life		×
Other	○	

5. Annual average rate of reduction: 2010-2017 vs 2010-2030

Current AARR in MMR	4.2%
Expected AARR to reach MMR target 2030	6.4%

7. Available in National Essential Medicines List - (2013)

Misoprostol		✓
Mifepristone	×	
Misoprostol + Mifepristone combination	×	

8. Post-abortion contraceptive acceptance

No data

Legend

- Contraceptive prevalence - modern methods (%)
- Demand satisfied for modern contraception (%)
- Unmet need for family planning (%)
- Unsafe abortions averted (000's)

Definitions and abbreviations

Unsafe abortions averted due to modern contraceptive use: Number of unsafe abortions that did not occur during a specified reference period as a result of the protection provided by modern contraceptive use during the reference period.

Contraceptive prevalence - Modern Methods: Percentage of women of reproductive age who are using (or whose partner is using) a modern contraceptive method at a particular point in time

Unmet need: percentage of fecund women of reproductive age who want no more children or to postpone having the next child, but are not using a contraceptive method, plus women who are currently using a traditional method of family planning

FP - Family planning, **MMR** - Maternal Mortality Ratio
