

GYTS Objectives

The Global Youth Tobacco Survey (GYTS), a component of the Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring youth tobacco use (smoking and smokeless) and tracking key tobacco control indicators.

GYTS is a cross-sectional, nationally representative school-based survey of students in grades associated with ages 13 to 15 years. GYTS uses a standard core questionnaire, sample design, and data collection protocol. It assists countries in fulfilling their obligations under the World Health Organization (WHO) Framework Convention on Tobacco Control (FCTC) to generate comparable data within and across countries. WHO has developed MPOWER, a technical package of selected demand reduction measures contained in the WHO FCTC:

GYTS Methodology

GYTS uses a global standardized methodology that includes a two-stage sample design with schools selected with a probability proportional to enrollment size. The classes within selected schools are chosen randomly and all students in selected classes are eligible to participate in the survey. The survey uses a standard core questionnaire with a set of optional questions that countries can adapt to measure and track key tobacco control indicators. The questionnaire covers the following topics: tobacco use (smoking and smokeless), cessation, secondhand smoke (SHS), pro- and anti-tobacco media and advertising, access to and availability of tobacco products, and knowledge and attitudes regarding tobacco use. The questionnaire is self-administered; using scannable paper-based bubble sheets, it is anonymous to ensure confidentiality.

In Madagascar, GYTS was conducted in 2018 by the Ministère de la Santé Publique. The overall response rate was 96.5%. A total of 2,920 eligible students in grades 6ème to 3ème completed the survey, of which 1,674 were aged 13-15 years. Data are reported for students aged 13-15 years.

GYTS Highlights

TOBACCO USE

- 11.3% of students, 16.7% of boys, and 6.8% of girls currently used any tobacco products.
- 10.1% of students, 16.5% of boys, and 4.9% of girls currently smoked tobacco.
- 8.9% of students, 15.0% of boys, and 4.1% of girls currently smoked cigarettes.
- 1.6% of students, 1.1% of boys, and 2.0% of girls currently used smokeless tobacco.

CESSATION

- More than 7 in 10 (70.6%) current tobacco smokers tried to stop smoking in the past 12 months.
- Almost 7 in 10 (69.9%) current tobacco smokers wanted to stop smoking now.

SECONDHAND SMOKE

- 35.9% of students were exposed to tobacco smoke at home.
- 52.3% of students were exposed to tobacco smoke inside enclosed public places.

ACCESS & AVAILABILITY

- 59.6% of current cigarette smokers bought cigarettes from a grocery store, street vendor, or kiosk.
- Among current cigarette smokers who tried to buy cigarettes, 71.9% were not prevented from buying them because of their age.

MEDIA

- Almost 7 in 10 (66.6%) students noticed anti-tobacco messages in the media.
- Almost 3 in 10 (27.6%) students noticed tobacco advertisements or promotions when visiting points of sale.
- Almost 1 in 10 (6.5%) students had something with a tobacco brand logo on it.

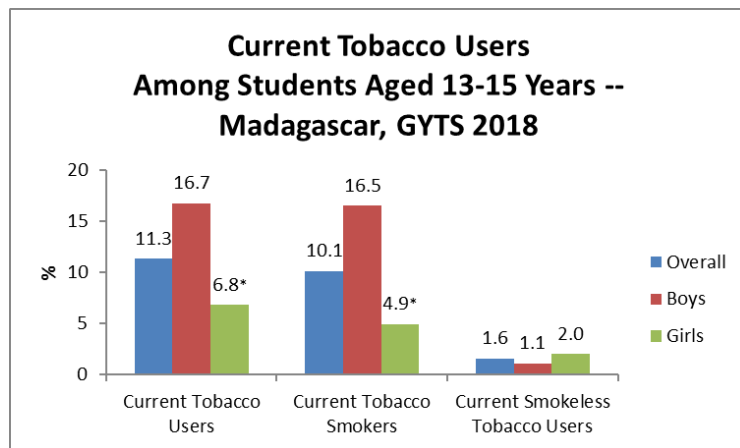

KNOWLEDGE & ATTITUDES

- 72.1% of students definitely thought other people's tobacco smoking is harmful to them.
- 88.7% of students favored prohibiting smoking inside enclosed public places.

TOBACCO USE

SMOKED TOBACCO	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco smokers ¹	10.1	16.5	4.9*
Current cigarette smokers ²	8.9	15.0	4.1*
Frequent cigarette smokers ³	1.7	3.5	0.4*
Current smokers of other tobacco ⁴	2.9	4.5	1.5*
Ever tobacco smokers ⁵	24.5	38.5	13.0*
Ever cigarette smokers ⁶	23.2	37.3	11.8*
Ever smokers of other tobacco ⁷	5.6	8.5	3.1*
SMOKELESS TOBACCO			
Current smokeless tobacco users ⁸	1.6	1.1	2.0
Ever smokeless tobacco users ⁹	8.4	7.6	9.2
ANY TOBACCO USE (smoked and/or smokeless)			
Current tobacco users ¹⁰	11.3	16.7	6.8*
Ever tobacco users ¹¹	28.7	40.0	19.4*
SUSCEPTIBILITY			
Never tobacco users susceptible to tobacco use in the future ¹²	13.7	17.8	11.3
Never tobacco smokers who thought they might enjoy smoking a cigarette ¹³	15.1	14.4	15.6

CESSATION

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco smokers who tried to stop smoking in the past 12 months	70.6	69.2	74.4
Current tobacco smokers who wanted to stop smoking now	69.9	74.0	--
Current tobacco smokers who thought they would be able to stop smoking if they wanted to	80.5	76.1	91.0
Current tobacco smokers who have ever received help/advice from a program or professional to stop smoking	18.2	17.5	20.0

SECONDHAND SMOKE

	OVERALL (%)	BOYS (%)	GIRLS (%)
Exposure to tobacco smoke at home ¹⁴	35.9	39.3	33.1
Exposure to tobacco smoke inside any enclosed public place ¹⁴	52.3	58.2	47.4*
Exposure to tobacco smoke at any outdoor public place ¹⁴	51.0	53.3	49.3
Students who saw anyone smoking inside the school building or outside on school property ¹⁵	69.1	70.2	68.2

ACCESS & AVAILABILITY

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current cigarette smokers who bought cigarettes from a grocery store, street vendor, or kiosk ¹⁶	59.6	59.7	59.4
Current cigarette smokers who were not prevented from buying cigarettes because of their age ¹⁷	71.9	76.6	60.8
